Subject: Form submission from: Emergency Response to Gold King Mine Release Contact Us About Emergency Response to the Gold King Mine Release form

Submitted on 08/11/2015 9:49PM

Submitted values are:

Name: Kit Cosby

Email Address: Personal Email/Ex. 6

Comments: To clean the spill use high voltage DC current through a Jacobs Ladder built with graphite rods, (in a cage to protect wildlife) this should lock the waste in to a non soluble form (fullerenes) in water and will settle in a biologically inert form as sediment.
